Children love to create works of art, letting their minds race with ideas as they put them on paper. The Group Art Panel is another creative outlet for children and they will love using it because it can go directly on the playground! Children can draw inspiration from their outdoor surroundings as they paint. An easy to clean, Plexiglass painting surface means it can be used on both sides. Each side also features a built in paint cup tray with cup holders, keeping paints within easy reach. Not only will the Group Art Panel foster creativity, but it will also promote social development as children interact with each other and create masterpieces together. The solid plastic frame gives the unit a sturdy leg to stand on. The Group Art Panel is available only as a portable unit. Brackets are available to make it mountable. This unit is intended for use by children ages 2 years and up.
