### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Bridge the Gap is a great playground set for buyers who want to save space while adding as much fun as possible. Kids have a lot of play options on the Bridge the Gap structure including two slides, four different climbers, two bridges, and more. Line Roofs add aesthetic value to the set. The Bones Bridge and Arch Bridge offer different ways for children to go from deck to deck. This is important as it encourages children to try different activities. There are various types of climbers included in this structure including a Snake Climber, Pod Climber, Figure Climber and Sea Creature Climber. With so many slides and climbing events, the structure still manages to include other activities such as a Tic Tac Toe Panel, Ship's Wheel, Bongo Drum and Rain Wheel. Each Bridge the Gap is custom built to your color specifications using our available custom colors.
