**Capacity:** 33-43

**Fall Height:** 84"

**Use Zone:** 38' 1" x 38' 6"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Encourage children to keep fit with the Don't Think Twice. Designed for elementary school aged children, it meets their unique needs for imaginary play and a physical challenge. Half of the system is a traditional play set with climbers, slides and panels. The other half is made up of largely climbers and a spinner. Most of the climbers, like the Arched Overhead Swinging Ring Ladder, are full body weight exercises that build up strong core muscles. On the more traditional portion, children are given a variety of easier options like the Inverted Arch Ladder or the more balance intensive Pebble Climber. Once on the structure, kids can immediately take the Double Slide down or take time to play on the Gear and Maze Panels. There is so much to do on both portions of the structure that children will keep playing for hours. Add to the fun by choosing any of our preset color schemes or simply create your own with any of our custom colors.
