### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Neck of the Woods play system will leave observers awestruck. Its spiral layout will keep children busy for hours on end. This multi-leveled unit offers fun at any height. With feet planted on the ground, a Rain Wheel, Bongos, Single Drum and Ship's Wheel are within reach for kids needing a breather or those wary of elevated platforms. The Landing Zone is nestled beneath the structure evoking a cavern entrance of a sort. The layout winds upward like a large metal coil. Various slides and activities line the walls. The precipice of this unit houses a long 8-foot slide that is sure to get any kid's heart pumping, almost as much as a turn on the Vertical PE Rock Climbing Wall or Spiral Climber. And for when children to slow down for a moment, the Gear Panel is a mesmerizing piece that is relaxing to watch spin. The Neck of the Woods play system will be a child's favorite place to play.
