

Double Sided Fido Fountain

MSRP \$5,751.00

SALE \$4,889.00

Dog parks are a great deal of fun for pets and their owners. Just as for humans staying hydrated is important for dogs. For large dog parks, the Double Sided Fido Fountain offers two fountains on a single configuration. The two fountains placed at slightly different heights allow access by most small and medium breed dogs. The fountain is constructed of commercial grade steel for durability in outdoor weather and will hold up for years of public usage. A water source is required for the Double Sided Fido Fountain to properly function. Ideally please your Fido Fountain in conjunction with dog park equipment. For assistance on a dog park design including a Fido Fountain, contact a AAA State of Play design consultant. Our free services will mock up your dog park area with ease and show you exactly how your equipment can be applied to your specific space.
