CPSC PUB #325

Improve coordination with the 8 Foot Balance Beam. Kids will naturally gravitate toward this colorful beam wanting to give it a try. It is specifically designed for children in preschool and elementary school. This structure is ideal for make believe fun; kids could be tiptoeing across a rickety bridge or walking on a tightrope in a circus performance. Improving coordination and balance are some of the perks to playing on this unit. The uses of the 8 Foot Balance Beam range widely. Also, this freestanding beam can be installed in a multitude of places due to its smaller size. The bar is low to the ground to keep things safe and fun at all times. Pair this beam with other pieces of equipment to build an excellent and long lasting playground. Sometimes the most fun is had on the most simple.
