A successful dog park is made up both amenities and activities. The 7-Piece Best In Show BarkPark Kit gives you the best of both! For waste management, the kit has both the BarkPark Pet Waste Station and the BarkPark Tidy Up Trash Receptacle with Lid & Liner, because both humans and dogs will have things to throw away. The kit has the portable BarkPark Sit & Stay Bench for tired owners to sit for a second. Its portable design allows park owners or patrons to move it as necessary. For dogs, the most important part of the dog park, besides socializing, is the freedom to play. The BarkPark Rover Jump Over encourages dogs to soar to new heights as they jump over the adjustable bar. When they're ready for a new challenge, the BarkPark Hoop Jump presents not one, but three new challenges. If all a dog wants is to keep his paws on the ground, the BarkPark Doggie Crawl will provide that. After a fun day of play, the BarkPark Paws Grooming Table gives Fido a place to rest before going home for the day.

More site amenities focused kits include the 4-Piece Site Amenities BarkPark Kit and the 5-Piece Deluxe Site Amenities BarkPark Kit.
