**Use Zone:** 28' 5" x 31' 11"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Children will climb to new heights on the Craggy Connection. It's named for its Craggy Climbers that jut out like a peninsula from one side, the Craggy Connection offers varied levels of climbing for new and old climbers. Children will happily clamber up the Inverted Arch Ladder or Snake Climber as a warm-up before attempting the Craggy Walls. Once they reach the summit of the play system, they will be given the choice: trek across the Bones Bridge to head down the Right Turn Slide or take the Wave Slide for an immediate ride. Once on the ground, elementary school explorers can take a turn on the Ship's Wheel or turn out a new beat on the Single Drum. But the most rewarding challenge of all will be to take on the Craggy Climber Turn and End Sections. The Craggy Connection is available for quick ship in Primary or Neutral colors or take the time to pick a set of our custom colors for your own color scheme.
