

## Suspended Cantilever Bleacher Shade

**Price \$17,586.00**

### Highlights:

- Two post support system
- Covers bleachers of 10 rows high
- Larger range of view for the audience
- Compact and unique design
- **Surface mount only**

If you have a large size bleacher or other requirement the Suspended Cantilever Bleacher Shade is for you. This can accommodate bleacher sizes up to 10 rows high! The unique engineering allows 2 posts to support the large shade canopy, an important factor as a traditional shade will have 4 columns, leading to obstructed viewing areas. Keeping aluminum cool is no easy task. Take the heat off of spectators so they can enjoy the activity. The Suspended Cantilever shade is available in multiple colors of paint for posts and fabric for the top. First select the applicable product and request a quote. Should you require a custom size, contact us by phone, email, or chat. Our sales team at AAA State of Play will have your shade quote including shipping within 1 business day. If you need installation, don't hesitate to ask. We have a network of installers including in-house crews working all over the nation.
