**Fall Height:** 60"

**Use Zone:** 35' 3" x 32' 10"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

Children will be swept away by the power of the Triton's Point Play System. The Triton represents a trident with three slides that lead away from the highest deck. Little wave riders are given a selection from the Right Turn, Left Turn and Straight Slides. For those that would rather ride the waves with a friend, the Double Wave Slide is a worthy option. Children can climb up to the decks upon a Pebble Climber With Rail or take the less strenuous option, the stairs, to get up to the slides. On their way, they might spin a few letters on the Spelling Panel, or drop down to the lower decks to spin away some time on the Half Math Panel. For those brave enough to sail down the trident of slides, a Ship's Wheel and Bongos await them. The Triton's Point Play System is fully customizable with a wide selection of plastic, powder coat painted galvanized steel and polyethylene color choices allowing your Triton, to be the only one of its kind.
