### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Orbital Odyssey will have kids shooting for the stars. With multiple levels of fun, this structure is ready to accompany children of many different tastes. The Ship's Wheel and Single Drum are easily reached without having to scale the structure. The Ship's Wheel with a little creativity turns into the helm of a massive yacht. If that Yacht needs some music, the Single Drum isn't too far away. Scaling the structure becomes simple with the Wavy PE Rock Climbing Wall and Snake Climber. Once on the levels above, various options open up. The Gear Panel provides a colorful show when the handle is cranked. A 270 Degree Overhead Trapezoid Ladder wraps around one end of the unit; making an interesting hanging challenge that'll peak the interests of determined children. One Straight Slide and one Wave Slide round out this consistently entertaining system.
