ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Clubhouse Funhouse makes everyone a VIP. This is an inclusive structure that has activities at the ground level for those that may not be ready or easily able to reach the upper tiers. Children can spin the numbers on the Math Panel or take a turn at the Ship's Wheel. Then it might be time for a musical break at the Single Drum or Bongos. Once children are ready, they can begin the journey deeper into the system via the transfer station or take one of the multiple climbers. The Wavy Snake Climber adds a challenge with its there and then gone design and the Pod Climber allows children to climb as they want with its stacked pieces. Once on the upper echelons, they can run across the alternating rods of the Bones Bridge, take a journey across on the Straight Overhead Snake Loop Ladder only to hang from the Swinging Rings. For those that elected to stay at the top, they have four different slides at their disposal. Choose your Clubhouse colors when you place your order to create the perfect place for your community's children.
