

Standard Bench Without Back

Price \$444.00

Highlights:

- Excellent team bench
- Choose one of six colors
- Comes with beveled edge
- Available in three different mount types to fit your needs

The sidelines often need places for the players to sit during a game or even parents to rest for a second at the zoo. The Standard Bench Without Back provides a clean seat for any players or parents that are waiting, depending upon your venue. The bench comes in a variety of mounting options to be as flexible as possible. It's now possible to have matching benches on the grass, on a concrete area, or even portable versions that can be used as needed. Even if you just need one bench, this bench works for almost any location. The backless design allows larger items to be set on the bench that may not have fit on a backed design. It also allows the bench to be approached and sat on from either direction. The bench is constructed from perforated steel and steel pipes with the hefty outer diameter or 2- $\frac{3}{8}$ -inches to withstand daily stresses and wear.

For the backed version, take a moment to look at the Standard Bench With Back.
