Keep your chin up and your arm muscles strong with the Triple Station Inclined Chin-Up Bars. This piece of fitness equipment works the latissimus dorsi muscle, which is important in extending the arm. It also works at strengthening the biceps, getting you that much closer to your dream beach body. This unit is comprised of three different chin-up bars at varying heights. Their inclinations allow people of all heights and sizes to effectively use this piece of fitness equipment. The frames of the beams are made out of hardy steel that is painted in a protective powder-coat; making it a long-lasting addition to any sandy beach, park, or bustling church. The powder-coat paint can be colored in up to two shades of your choice. As far as convenience goes, the Triple Inclined Chin-Up Bars couldn't be much better for inspired adults, teenagers, and the fervent elderly.
