CPSC PUB #325

You never have to skimp on leg day again with the Triple Royal Station Leg Press. This piece of fitness equipment works the lower body, specifically designed to tone and strengthen the muscles in the legs, such as the quadriceps, hamstrings, calves, and gluteus maximus. Strengthening these important muscles will make walking, running, and bending down easier. This specific unit can hold three exercisers at the same time and the Royal Leg Press can hold two. Individuals will never have to workout alone again! This low impact exercise is ideal for older aged adults. It is intuitive, low on risk, and ripe with benefits to be had. The Royal series of workout equipment comes with an instructional guide printed in the center of the unit. This puts athletes and first timers on the same playing field. The Triple Royal Station Leg Press is a great way to experience a lower body workout.
