Footprint: 8' x 8'

Use Zone: 19' 11" x 19' 11"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Freestanding 90-Degree Standard Horizontal Ladder is a classic playground fixture which happens to be an unlimited source of both fun and upper-body exercise. This model bends into a right angle in the middle. This design allows it to fit into spaces which might otherwise be too small to contain an overhead climber of this length, such as the corner of a playground which may otherwise go unused. Additionally, there are a variety of color options available for the baked-on, weather-resistant paint coating. The six support posts as well as the rest of the structure features this type of paint job; making the Freestanding 90-Degree Standard Horizontal Ladder an easily customizable addition that will feel right at home alongside any other playground equipment. This model features two additional small ladders to help shorter children easily reach the bars.
