

Freestanding Trapezoid Loop Ladder

MSRP \$3,176.00

SALE \$2,444.00

Highlights:

- Fun way to get fit
- Easy to grip rungs
- Custom powder coat paint colors on steel portions
- Two ladders to ascend and descend from structure

Age Group: 5 to 12 years

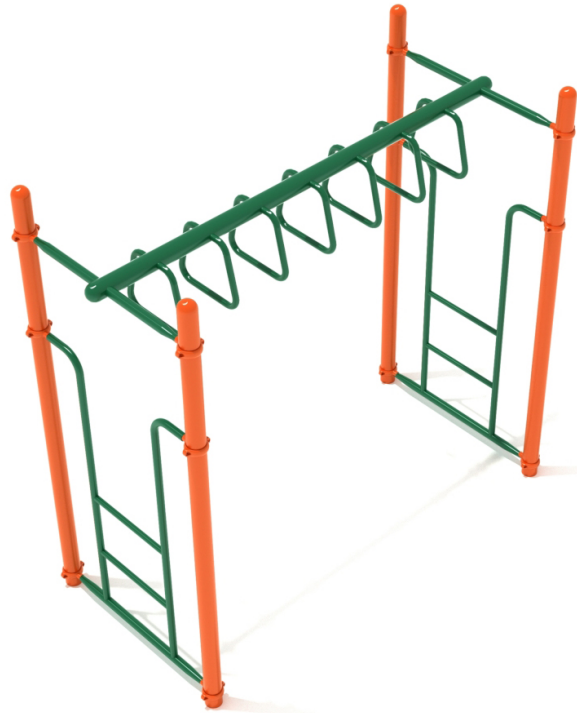

Footprint: 4' 2" x 8'

Use Zone: 16' 3" x 19' 11"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Freestanding Trapezoid Loop Ladder is a durable powder coat painted steel play structure with seven trapezoid shaped hoops for kids to use to climb across and reach the opposite side. Children are able to easily grasp the bottom of each trapezoid. The design is a transitional cross between the height of hanging rings and the lack of motion from a horizontal ladder. The size of the overhead beam and relatively small number of rungs make this a very doable challenge for kids while being strenuous enough to give them a great upper body exercise. This unit also has small step ladders on both ends of it; making it accessible to children who might otherwise be unable to reach the hoops. The entire structure is coated in a baked on powder based paint, which is long lasting, weather resistant, and comes in a variety of colors to suit your custom specifications.
