CPSC PUB #325

The Freestanding Double Parallel Bar Ladder is a multi-functional unit with an emphasis on fun. Its layout has two entry points for ease of access. The real excitement begins when a kid has left the ground. They can climb one of the two ladders to begin the journey. The two parallel bars have many different ways to be played on. A child can hang on just one or hold onto both for more stability. The steel frame and bars support multiple kids playing on it simultaneously providing ample opportunities for social skills to develop as they partake in nail-biting races of skill or have pretend adventures together. The time children will spend climbing are ideal ways to improve upper body strength while still having a blast. The Freestanding Double Parallel Bar Ladder is the perfect combination of fun, intense exercise and friendship building.
