**Age Group:** 5 to 12 years

**Footprint:** 4' 2" x 8'

**Use Zone:** 20' x 16' 2"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

The Freestanding Pebble Sway Bridge is an exciting piece of freestanding equipment. It challenges children to cross from one side to the other by stepping across the pebble platforms. The pebble platforms are built to sway back and forth, making it a fun test of balance when stepping from one to the next. Each pebble has raised studs that offer better traction; reducing the chances of falling. Children can also grab the steel rods that hold the pebbles for added support. Some kids will prefer simply swinging back and forth on the pebble pendulums and that is fine, too! The sturdiness of the Freestanding Pebble Sway Bridge accommodates numerous ways to play. The unit's frame is made with steel that has a powder-coat paint job. This paint resists bad weather and rusting; making it ideal for most outdoor areas. Children are going to have undeniably good fun.
