2 Seat Belt Swing Seat Package

Package Includes:

Swing sets often outlive the seats, chains and clevises that make them work. The 2 Seat Belt Swing Seat Package is designed to be a ready replacement for just such an instance. Sold in a pair, this package is perfect for replacing one bay of swing seats. The kit includes chains, clevises and a wrench as these are all the weight bearing, moving parts on a swing. Each part is more likely to suffer wear than the rest of the swing set. The kit is available in five different colors and a the four most common chain lengths that are sure to match your playground. Additional chain is available by the foot, in a 250 feet, 500 feet, or 800 feet lengths as well as belt seats and Swing Hangers with Shackle Pendulum to keep your swing set in good working order at all times.
