1 Seat Belt Swing Seat Package

Package Includes:

This 1 Seat Belt Swing Seat Package is great as a replacement of an old swing with its high-quality vandal-proof construction. All swings are made with a band of steel through the seat that resists vandalism while at the same time providing comfort and support for children. Safety, comfort and price combine to make this swing a valuable addition that will provide hours of enjoyment for children who swing on it. The package includes everything needed to put up the swing including two commercial grade steel chains, two clevises and a wrench for use only with this swing. The seat includes a tamper-proof design where only that wrench will be able to adjust the swing, providing added safety for the child. The seat should fit any preschooler to elementary-schooler.
