ASTM F1487-17

CPSC PUB #325

This Box of 6 Elite High Back Bucket Seats with Steel Insert (5 Colors Available) by Playground Equipment Dot-com is high-quality and great for replacing old or damaged seats on an existing swingset, or for building a new one. The shape of this design is perfect for very young children because its high back and leg holes keep the child securely upright and in the seat, even when the swing is in motion. For older children, it is recommended that belt seats are used. The hidden steel insert lends a lot of strength to the plastic seat, fortifying it against years of exposure to the elements and use by children. The box of six seats comes at a discounted rate, saving you money over buying six seats individually. Even if you don't need all six right away, it never hurts to have a few replacements handy. The coloring of the plastic on the seats comes in your choice of black, blue, green, red or yellow.
