The Premium Ensemble of Freenotes instruments contains five very different instruments which together to form a colorful symphony of sounds. Musicians have their choice of playing melody, bass, or rhythm; upright chimes, bongo-style drums, or rows of keys; plastic, fiberglass, or aluminum. The wide array of different styles of instruments gives aspiring musicians a chance to experiment with all five and discover the one that best suits them. Another important benefit of these five instruments is that they can all be easily played by two musicians at once. This means that up to ten people can join in on the band at the same time. Additional Freenotes instruments can also be installed later to expand the ensemble's already complete sound. In-ground mounting comes included in the discounted price of the package, and the instruments can be installed at the perfect heights to accommodate potential musicians of all ages and levels of physical ability.
