ASTM F1487-17

CPSC PUB #325

Add a little twist to your playground with the 3-feet Left Turn Free Standing Slide. Being one of the shortest slides that we offer, it is also the best for the youngest visitors at playgrounds, daycares, and any place that caters to small children. The mostly straight flow of the ride gives reassurance to beginners and eases them into more challenging, yet exciting rides. The 3-feet Left Turn Free Standing Slide can withstand the daily rigors of children going full tilt towards their next adventure. Little ones will impatiently wait in line to enjoy the simple thrill of slipping down the slide again and again. Parents and caretakers alike will be able to relax with the sturdy powder coat painted galvanized steel posts and heat resistant plastic slide that is more gentle to little hands and feet than its galvanized steel counterpart. Some might worry that it won't match the theme, decor, and style of their envisioned play area, but with a list of both plastic and powder coat paint colors to choose from, there are multiple combinations waiting to be made.
