- Roto-molded plastic slide with smooth, friction-reducing finish

**Age Group:** 5 to 12 years

**Footprint:** 5' 9" x 14' 9"

**Use Zone:** 19' 7" x 28' 2"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

Spirals add a little twist to everything. This fun 8-Foot Open Spiral Slide by PlaygroundEquipment.com offers twists and turns that will have kids going down again and again. It is one of the largest free-standing slides that we offer, featuring an 8 foot tall slide that coils around a full 450-degrees before reaching the ground. The spiral shape is not only fun, it's well-designed to combine fun and functionality. The shape conserves space, making the structure a lot more compact than it would be if the slide extended straight outwards. It is also safer, since constantly turning prevents the accumulation of too much speed. The stairs and deck of the structure are given a specialized PVC coating, which keeps them from getting slippery, and are completely surrounded by a secure metal handrail. This slide is supported by a sturdy pole that is in-ground mounted.
