ASTM F1487-17

CPSC PUB #325

Child will find themselves barreling into a world of fun on the 6-feet Straight Tube Free Standing Slide. Standing at a modest height of 6-feet, most children will feel comfortable mounting the stairs to take the initial plunge which is guaranteed to be their first of many. The tube design creates a level of safety and security for children and parents alike. The fun can be increased by choosing a variety of colors to create a multi-colored ride. The tube pieces can be alternated in contrasting hues for a starkly clear visual as they descend or choose each piece in a different color for a rainbow road of your own. For the more adventurous souls, strategically placed clear pieces can give riders glances at the outside world. No matter the tones or combination, it is all made from the same great rotationally molded plastic and galvanized steel parts that are sure to last for years to come.
