COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Covered Market is an ideal place for kids to get away from the sun and the hullabaloo of the playground to enjoy a bright bazaar of games and entertainment. The Market contains 10 of our most exciting Activity Panels, offering a wide variety of ways to have fun. There are multi-player games, like Tic-Tac-Toe and Plinko, so that children can play with their friends or make new ones. For children who want a moment to themselves, there are also great single-player activities, like the Maze Panels and Gear Panel. There is also a Percussion Panel and Drum Panel so that kids can underscore the lively marketplace with music of their own composition. There is even a Math Panel mixed in with the other activities, encouraging children to blend some educational practice in their playtime. The whole marketplace is covered by a wide, decorative umbrella, which gives the Covered Market its name, and a complete, enclosed appearance. These activities are great for children of all ages and are accessible to those with any level of physical abilities.
