Poseidon's Hideout is an oceanic adventure that every kid will want to dive into. Its rounded shape resembles a rolling wave, and children will be able to climb its rippling ridges to reach the top. The gently sloping shape of its arch makes this a simple and safe challenge for preschool-aged kids. There is even more fun to be had under the sea, and children can dive into more adventures by crawling into either end of the climber or dropping down the hole on top. The underside of the tunnel is molded with exciting scenes of friendly fish, octopi, and other sea creatures. These animals, bubbles, and landscapes have three-dimensional shape, giving them a more lifelike appearance and allowing kids to actually feel them. Since this structure provides two levels of fun and has plenty of different passages, it can occupy and delight plenty of seafaring youngsters at once.
