The Expanded Metal Sport Bench with Back is a great way to bring style and comfort right to the playing field. These benches come in a range of different lengths so that you can fit the whole team no matter how many players there are. Their highly durable design with commercial-grade steel materials can handle it. This model comes with a back piece attached, giving your players a place to lay back, so that they will be relaxed and ready to get back into the action. Show off your team pride with a wide selection of color options to match any team uniforms. We also have different mounting options so that you can permanently install the bench alongside any field, or give it a portable base that enables it to be moved off the field. This enables you to put it safely in storage when it's not being used or move it to different practice spaces. Contact us for details.
