

MyTCoat Metro Bench With Back

MSRP \$1,668.00

SALE \$1,418.00

Highlights:

- Choose between a 4 or 6-foot bench
- Attractive vertical slats for an stately look
- Combines angles with gentle curves for a sleek, elegant design
- Choose your choice of coating, each offering their own advantages

The Metro Bench With Back is a stylish outdoor seat bench that provides your location with a decorative structure and convenient seating which guests will greatly appreciate. Its structure is made up of several metal strips which are wide and flat, but deceptively strong. This makes the bench extremely sturdy despite having a simple and elegant design. The armrests are made from similar steel strips, making them blend perfectly with the style of the bench. The seat bends upwards to form the back of the bench in a seamlessly unified design. The seat's back allows guests to enjoy the bench for hours at a time and still be comfortable. It is available with either a surface mounting or a portable base. The surface mount bolts the feet of the bench directly to a hard surface such as a concrete walkway, allowing it to be securely installed in one place. But if you want to be able to move your bench around after it is set up, our portable bases make transportation simple.
