

MyTCoat Round-Arm Metro Bench without Back

MSRP \$1,813.00

SALE \$1,542.00

Highlights:

- Low to the ground allowing for a clear view
- Decidedly elegant styling with a contemporary air
- Parallel slats allow seat to cool down on fervid days
- A half circle and a full circle create the arms and support posts

The Round-Arm Metro Bench Without Back is an extremely stylish model of outdoor bench with rounded features that give it a fresh and modern look. This design has no back, which makes it accessible from both sides, giving guests many more options about where to sit and which way to face. The backless design also gives the bench perfect symmetry from the front to back. This symmetry is complemented by the circular design of the bench's arms and legs. The circular armrests offer guests some additional comfort while making the bench look completely unique. They even work well as handles, making it simple to transport this bench if it is given a portable base. For a more permanent installation, we also offer surface mounting, which allows you to permanently install your Round-Arm Metro Bench on most hard surfaces like concrete by simply bolting it right in.
