- Many color options available to match your venue

The MyTCoat Honeycomb Steel Double Bench with Square Posts is the perfect seating option for those busy parks and playgrounds. With two sides, this bench can provide a lot of seating for a large number of people while still retaining a sleek and robust design. If you need more space, upgrade from the 6-feet to 8-feet option. With two in-ground or surface mounted posts, this bench provides the stability and support for tired pedestrians of all ages after a long day walking the trails and enjoying the outdoors. All support beams and seating platforms are constructed from high-quality commercial-grade materials, so there's no need to worry whether the bench can handle all that exhausted traffic. With multiple coating options, the double bench is designed to endure the elements as well as extended periods of use without wear or tear. Explore the variety of options and finishes to find the design that works for you! Contact us for more information.
