MSRP \$342.00

SALE \$292.00

Highlights:

- Perfect for tough, outdoor use
- Color options available to suit your space
- Any 32-gallon MyTCoat lid easily fits atop
- Lid and plastic liner do not come with this receptacle

MyTCoat 32 Gallon Expanded Metal Trash Receptacle from MyTCoat is an affordable, durable, and convenient way to ensure guests and passersby choose to throw trash away instead of littering. This receptacle has a durable outer frame with an entrancing diamond-shaped pattern. You can choose between the Industrial Standard and extra-tough Advantage coating, and then pick the color that fits the look your space requires. Several alternate shades are available. Please speak to a AAA State of Play salesperson to learn more about what other colors are currently available. Trash receptacles inevitably have to be emptied from time to time, but thanks to the large 32-gallon capacity of this container, maintenance will be easy and infrequent.
