

MyTCoat 32 Gallon Frisbee Trash Receptacle Lid

MSRP ~~\$171.00~~

SALE \$146.00

Highlights:

- 12-inch opening makes waste disposal easy
- Made of strong steel to weather wear and tear
- Colors available to match MyTCoat receptacles
- Fits perfectly any MyTCoat 32 Gallon trash receptacle

No trash receptacle is complete without a lid, and this 32 Gallon Frisbee Lid from MyTCoat is one of the most straightforward and effective models available. It is easy to attach and remove from any of MyTCoat's 32-gallon trash receptacles. In addition to making your trash can look neat and contained, the lid also helps to keep trash inside the can by narrowing the opening, so that trash does not get blown out of it on windy days or fall out when the receptacle gets too full. The lid also encourages guests to place their trash directly into the can instead of carelessly tossing it like they otherwise might. It also limits the amount of trash that fits into the can, so that guests do not try to keep piling trash on top of an already full can.
