

MyTCoat 32 Gallon Tiered Trash Receptacle Lid

MSRP \$249.00

SALE \$212.00

Highlights:

- Made of weather-resistant steel
- Keeps the elements out of the trash
- Fits atop any MyTCoat 32-gallon receptacle
- Choose from the same color and coating options as receptacles

The 32 Gallon Tiered Lid is a perfect way to protect your MyTCoat receptacle from the elements with style. Its clever design features a circular disk suspended over the opening of the lid by three legs. This is a perfect way to make sure the rain and snow don't get in and make your waste heavy and wet. This lid also makes the can more noticeable so that guests will easily see it from any direction and thus be more likely to use the bin instead of littering. The length of the lid's supports places its upper-tier high above the receptacle opening, which allows guests to easily drop large items of trash inside. The 32 Gallon Tiered Lid is available with different coating options, including the Industrial Standard and ultra-durable Advantage finishes. This lid is compatible with a wide range of MyTCoat trash receptacles.
