

MyTCoat 32 Gallon Tiered Trash Receptacle Lid with Ash Tray

MSRP \$373.00

SALE \$319.00

Highlights:

- Choose your color as well as coating
- Protects trash from any precipitation
- Provides a convenient place to put out cigarettes
- Easily attaches to any of MyTCoat's many 32-gallon trash receptacles

Clean up all those cigarette butts littering your outdoor space with the MyTCoat 32 Gallon Tiered Lid with Ash Tray. People tend to want to get rid of their cigarettes the moment that they are finished, and so there is a good chance that they will simply drop them if there isn't an ashtray nearby. Luckily, this 32 Gallon Tiered Lid with Ash Tray can upgrade your MyTCoat 32-gallon receptacle so that it can safely contain that potential litter. Since it has a separate tier for the cigarettes, there is no risk of them inadvertently starting a trash fire. The tier also covers the opening of the trash can, so interior waste is also protected from the elements. This keeps the trash bag from filling up with water and becoming wet and smelly. It even comes in a variety of color and coating options, allowing you pick a hue that best matches or complements the color of the receptacle. This lid can be easily installed onto several of MyTCoat's trash receptacle models.
