

MyTCoat Honeycomb Steel Pedestal Frame Picnic Table

MSRP \$1,835.00

SALE \$1,561.00

Highlights:

- Solidly fixed benches and tables
- Choose between standard or ADA configurations
- Rounded corners on benches and tables for safety
- Solid 4-inch square posts easily hold the punched steel top and seat

The MyTCoat Honeycomb Steel Pedestal Frame Picnic Table is a wonderful outdoor picnic table with a robust and minimalist design. Rather than a needlessly complex framework, this bench has two large 4-inch square columns at each end of its table and two benches. The design of the framework leaves the entire area under the middle of the table and benches clear, creating the maximum possible amount of leg space and optional areas to place bags. The MyTCoat Honeycomb Steel Pedestal Frame Picnic Table comes in either a six or eight-foot-long option with additional ADA accessible models. In the ADA accessible models, the square columns are placed closer to the middle of the table to allow wheelchair users to pull right under the overhang. There is a choice between one large area on one end of the table or two spaces for wheelchair use.
