

## MyTCoat Expanded Metal Deluxe Frame Round Table with Smooth Top

**MSRP \$1,900.00**

**SALE \$1,616.00**

### Highlights:

- Floating central table post
- Wide legs to balance the entire structure
- Extra reinforcement under each individual seat
- Rounded seat and table edges for comfort and safety

The MyTCoat Expanded Metal Deluxe Frame Round Table with Smooth Top is one of the best outdoor tables for locations that see patrons indulging in a variety of different activities. With a cool spun-metal tabletop and expanded steel seats and framework, this commercial-grade outdoor furniture unit is ready for anything, from writing reports to playing chess. With no holes in the surface for things to fall through, this tabletop is great for dining, games, and more. The only spot to work around is the central umbrella port, which is small enough to cause little inconvenience. The ring of seats around the circular table gives everyone equal access to its surface, making it perfect for group activities. And if you're anticipating wheelchair-using guests, just choose the two or three-seat ADA accessible design. No matter which version is chosen, the table will come with a powder coat painted frame and thermoplastic coated seats and top.
