SALE \$1,023.00

Highlights:

- 36-inch round table top
- Clear placement for an umbrella
- Attached seats that cannot be moved
- Added metal disc between the table legs for extra strength

This Expanded Metal Round Patio Table with Seats is a compact outdoor table with built-in seats and modern, circular design. It is perfect for sitting outside with a few close friends and enjoying some drinks or light snacks. The tabletop is 36-inches which creates an intimate and personal setting as guests can sit and talk easily over the round table size. Each of its four round seats is made for a single person, granting it a full capacity of four people, limiting crowdedness while still allowing a conversation to flow easily. Thanks to its lightweight design and portable base, this is an easy table to place wherever you want it. This way you can keep following the shade, put it away during the winter, or move it for different activities. The table has a hole in the center and a framework which allows it to hold stylish outdoor umbrellas.
