

MyTCoat Honeycomb Steel Double Post Picnic Table

MSRP \$2,610.00

SALE \$2,219.00

Highlights:

- 6 and 8-foot sizes available
- 8-foot ADA accessible table variations
- Two 4-inch steel posts support the table and benches
- Floating benches provide clearance under the bench seats
- Smooth rounded corners match the honeycomb holes in top and seats

The MyTCoat Honeycomb Steel Double Post Picnic Table offers a lot of space and access to all the guests of your restaurant, park, or picnic space. The table has excellent strength and stability thanks to its thick square columns and the pairs of arms that attach to the connecting benches. The benches can extend the whole width of the 6 or 8-foot table or you can add an ADA-accessible area at one or both ends by putting a 6-foot bench with an 8-foot table. The ADA-accessible tables leave generous space over one or both ends so that anyone in a wheelchair can easily come and join the party. No matter your ADA choices, this table has a fun Honeycomb steel style that allows for easier drainage and cleanup. And, with either an Industry Standard or Advantage coating, this table is sure to remain a great gathering place for dining and hanging out for years to come.
