

MyTCoat Expanded Metal Round Patio Table

MSRP \$749.00

SALE \$637.00

Highlights:

- Clean, corner-less design for safety
- Can be moved to a different area easily
- Eight posts that double the tabletop support
- Extra support provided with the x-brace between the legs

The Expanded Metal Round Patio Table is a perfect way to enjoy an endless variety of fun activities outdoors due to its circular shape. Guests will sit comfortably around the table as they eat, socialize or play games. This table has a portable base that allows it to be moved freely, greatly expanding the number of uses that you will find for it, and giving you more flexibility. The eight-legged design makes the table extra stable so that it won't wobble and is very difficult to knock over. It also allows four people to sit at the table at once. The table top's metal lattice and thermoplastic coating keep it dry no matter what, which makes it great even after rain or beside a pool. Resistance to rain damage is even more possible as you can put an umbrella or other shade structure in the pre-drilled hole located in the center of the Expanded Metal Round Patio Table.
