

MyTCoat Honeycomb Steel Single Post Round Table with Smooth Top

MSRP \$2,525.00

SALE \$2,146.00

Highlights:

- Smooth writing surface on the top
- Perforated steel seats to allow drainage and airflow
- Spun metal tabletop with umbrella hole in the center
- 3-inch square post support under seats that connect to the central 4-inch steel post

The MyTCoat Honeycomb Steel Single Post Round Table with Smooth Top is a sturdy outdoor table that is perfect for dining areas or anything else. It has our sturdy standard metal seats, which are highly durable and weatherproof. The top of the table, however, is a solid unbroken surface made of 11 gauge spun metal, which makes it great for all sorts of activities. Students will have even surfacing for studying and writing term papers or office workers taking a break can catch up on some forms. The centrally mounted structure of the table makes it level and stable, as well as being easy to install on nearly any type of surface. It also eliminates most of the framework that gets in the way of people's legs. The smooth top allows for small objects that might fall through the 1/2-inch honeycomb holes, to be set on the table. A child can easily set their earrings on the table next to mom before going back into the pool or a well-worn eraser can be used without falling to the ground. The MyTCoat Honeycomb Steel Single Post Round Table with Smooth Top can seat up to eight people.
