

MyTCoat Leash Terminal

MSRP \$665.00

SALE \$566.00

Highlights:

- Top of the terminal is decorated with dachshunds
- Tails and heads create a hook for the leashes to stay in place
- Stands at a height that is comfortable for most park goers to use
- Finished in Industry Standard coating to hold up to dogs and the elements

The Leash Terminal offers dog owners a place to safely put their leashes. Rather than having to carry it around as Fido is having fun, owners can set it on this decorative stand. The terminal has four decorated hooks on top, allowing it to hold up to four leashes at once. This also allows trainers that are using multiple leash types a ready place to set them for training. Most of the time that people spend with their dogs will likely be spent playing, training, and bonding, so dog owners will need their hands free to work with their animal. This allows them to have both hands free during the training, disciplining, and during the playing process. It can be rather difficult to use a clicker while offering a treat and holding a leash. Let this structure help out by supporting those leashes.
