

MyTCoat Executive Lantern Post

MSRP \$305.00

SALE \$260.00

Highlights:

- Graceful curve to the post
- In-ground mount that affords extra stability
- Galvanized steel post and solid steel hook
- Simple design that works with almost any outdoor furniture

Light up the night with your very own lanterns hung from the Executive Lantern Post. This curved post has a hook that makes it easy to hang just about any lantern whether it is a traditional kerosene lamp or a battery-powered one. The post suspends them several feet above the ground, which allows the light to travel farther. The post itself is elegant enough to work at a classy park or simple enough to be an added feature at a campground. However, the post can hold more items than lanterns. A bird feeder or a seasonal decoration would be supported easily on its hook. The hook is a solid steel piece that will hold up under the weight of most lanterns. Add a bit of safety to your night-time outdoor venue by adding the Executive Lantern Post or a series of them as a extra bright idea.
