

MyTCoat Honeycomb Steel Deluxe Frame Round Table with Smooth Top

MSRP \$2,416.00

SALE \$2,055.00

Highlights:

- Table has sizable 46-inch diameter
- A variety of top and seat colors are available
- Space between seats makes it easy to sit and get up
- Solid top removes any risk of ridges for more comfortable eating

The MyTCoat Honeycomb Steel Deluxe Frame Round Table with Smooth Top, with its solid, spun metal top, is a great option for outdoor dining areas. The round shape puts the food within everyone's reach, while the 46-inch diameter provides plenty of room for every dish and every plate for every guest. The bonded framework design reinforces every seat by connecting them to the 4-inch sturdy steel central post, thus avoiding those seats degrading into annoying, unstable benches. The seats have plenty of space between them to allow guests to effortlessly settle down for the meal or get up afterward. If you want even more room, simply choose the two or three-seat table options. This table can be mounted on most surfaces, thanks to the in-ground and surface mount options. Finally, with many custom colors to choose from, you can match the color scheme of just about any restaurant or outdoor establishment. Contact a sales representative for more details.
