

Jensen 3/16-inch Trivalent Coated Steel Swing Chain - Pail of 250 Feet

MSRP \$834.00

SALE \$589.00

Your swing won't be going anywhere without this Jensen 3/16-inch Trivalent Coated Steel Swing Chain. This deal comes with a pail containing 250 feet of chain, which is more than enough to outfit several swing bays, with plenty of chain left over to make repairs or replacements as needed. And since the chain is sold in one long strand, it can be cut as needed to fit any swing set, regardless of how high the top rail is. These chains fit our Bucket Seats and Belt Seats for swings, as well as all of our shackles, hooks, and harnesses, making them completely versatile. Plus, the trivalent coating on the tough steel links helps them to withstand natural wear and tear from the outdoor elements.
