Every child's dream is to fly like a superhero. With the Track Ride Double, children can fulfill that dream. The structure is a slim rail with three sets of supports. Children can pretend to fly like a bird or create an adventure on the playground. The simplicity of the equipment provides children with a single experience that no other piece of equipment can provide. The Track Ride Double is an attractive addition to your play area because it is so unique. Children will take turns for hours tilting across the playground on it. The Track Ride Double ships freight and is available in any of our twenty-two metal colors that are listed in the color selector.
