Intended for ages 5 - 12, the Track Ride gives riders a freeing feeling. Children can work on their cooperation and socialization as they help each other up to the handle. Once they have the handle, they can float across. As they speed through the air, they are working on their upper body strength and coordination. The flying sensation that they will have is unmatched by any other piece of playground equipment. The use zone is a small 17' x 25' making it a fabulous addition to small and large playgrounds alike. If you would like a larger version of the Track Ride, check out the Track Ride Double 24 Foot Long Play Event that is twice the length.
