- Wide foot platform for stability
- Spins around 360°
- Comes in an assortment of 22 colors

Age Group: 5 to 12 years

Use Zone: 14' 0" x 14' 0"

The Synchro Spinner is a unique playground structure that allows kids to rapidly spin in place while standing up. It features a rotating platform which rotates as the child stands on it. The vertical pole in the center of the structure serves as its axis of rotation and also provides the child with a reliable rail to hold onto as they spin. Riders can build up momentum by being pushed by a friend or adult, kicking off on the ground, or simply by shifting their body weight around. And since the platform is so close to the ground, the Synchro Spinner is safe even if children spin too fast and fall off.
