Use Zone: 15' 7" x 15' 7"

It doesn't take a huge slide or complex structure for kids to have fun. With the Whirl and Twirl, kids can have a blast by spinning in place. The bucket-shaped seat that the kids sit in has high edges, which prevent them from toppling out of it, no matter how fast they go. They can get themselves moving by shifting their body weight, or by having a friend or adult give them a push. The plastic seat can be customized with an impressively large selection of different color options. This structure is suitable for children between the ages of five and twelve.
